Ia. Strict nature reserve Strictly protected for biodiversity and also possibly geological/ geomorphological features, where human visitation, use and impacts are controlled and limited to ensure protection of the conservation values.			x										x								
Ib. Wilderness area Usually large unmodified or slightly modified areas, retaining their natural character and influence, without permanent or significant human habitation, protected and managed to preserve their natural condition.			x										x								
II. National Park Large natural or near-natural areas protecting large-scale ecological processes with characteristic species and ecosystems, which also have environmentally and culturally compatible spiritual, scientific, educational, recreational and visitor opportunities.		x	x				x						x		x			x			
III. Natural monument or feature Areas set aside to protect a specific natural monument, which can be a landform, sea mount, marine cavern, geological feature such as a cave, or a living feature such as an ancient grove.	x		x										x		x			x			
IV. Habitat/species management area Areas to protect particular species or habitats, where management reflects this priority. Many will need regular, active interventions to meet the needs of particular species or habitats, but this is not a requirement of the category.			x										x								
V. Protected landscape or seascape Where the interaction of people and nature over time has produced a distinct character with significant ecological, biological, cultural and scenic value; and where safeguarding the integrity of this interaction is vital to protecting and sustaining the area and its associated nature conservation and other values.		x			x								x		x			x			
VI. Protected areas with sustainable use of natural resources Areas which conserve ecosystems, together with associated cultural values and traditional natural resource management systems. Generally large, mainly in a natural condition, with a proportion under sustainable natural resource management and where low-level non-industrial natural resource use compatible with nature conservation is seen as one of the main aims.		x		x		x							x		x			x			
National Park City What is a National Park City? It's a place, a vision and a city-wide community that is acting together to make life better for people, wildlife and nature. A defining feature is the widespread commitment to act so people, culture and nature work together to provide a better foundation for life. It is a timely cultural choice, a commitment to a sense of place and way of life that sustains people and nature in cities and beyond.		x			x		x		x				x		x		x

Een stad waar mensen verbonden zijn met de natuur en met elkaar!			x										x								
Laten we samen van Rotterdam een Nationaal Park Stad maken! Een stad waar we allemaal genieten van een wilde, gezonde, en eetbare publieke buitenruimte. Waar de lucht die we inademen schoon is en waar het een genot is om te zwemmen, te wandelen en elkaar te ontmoeten. Samen kunnen we Rotterdam groener, mooier en biodiverser maken. Ja toch, niet dan. We wachten niet langer op beleidsmakers en politiek en gaan zelf aan de slag! We bouwen een radicaal inclusieve beweging waar iedereen zich betrokken voelt bij de campagne Nationaal Park Rotterdam. We bouwen aan een nieuwe identiteit voor Rotterdam. Lees het manifest om weer te weten komen!		x		x		x		x		x		x		x		x		x			
Wij werken samen voor:																				x	
§ Gezondere levens en meer sociaal welzijn voor de inwoners van Rotterdam; meer verbinding met de natuur en met elkaar.		x			x		x					x		x		x					
§ Meer wildlife, bomen en bloemen. We laten de natuur meer haar gang gaan.	x											x		x		x					
§ Natuurlijke habitats, schonere lucht, water, zee en land.	x						x		x		x		x		x		x		x		
§ Tijd buiten met elkaar door middel van cultuur, kunst, spelen, wandelen, fietsen, eten etc.			x		x		x		x						x		x		x		
§ Meer lokaal verbouwd voedsel en verantwoordelijke consumptie; minder voedselverspilling en minder voedsel van ver weg.	x		x		x		x						x		x		x		x		
§ Samen werken, delen, beslissen en van elkaar leren; iedereen denkt en doet mee.				x			x				x			x		x		x		x
